

airtouch⁴

Comfort, Control, Efficiency
Welcome to your smart home

SMART AIR CONDITIONING

Comfort & Efficiency

Everyone is Comfortable

Cool the house down before you get home in summer, or warm it up before you wake up in winter.

16 Zones
4 Units
2 Consoles

AirTouch 4 can control up to 4 ducted air conditioners and 16 zones across multiple storeys from 1 or 2 consoles in your home.

Integrates how you want

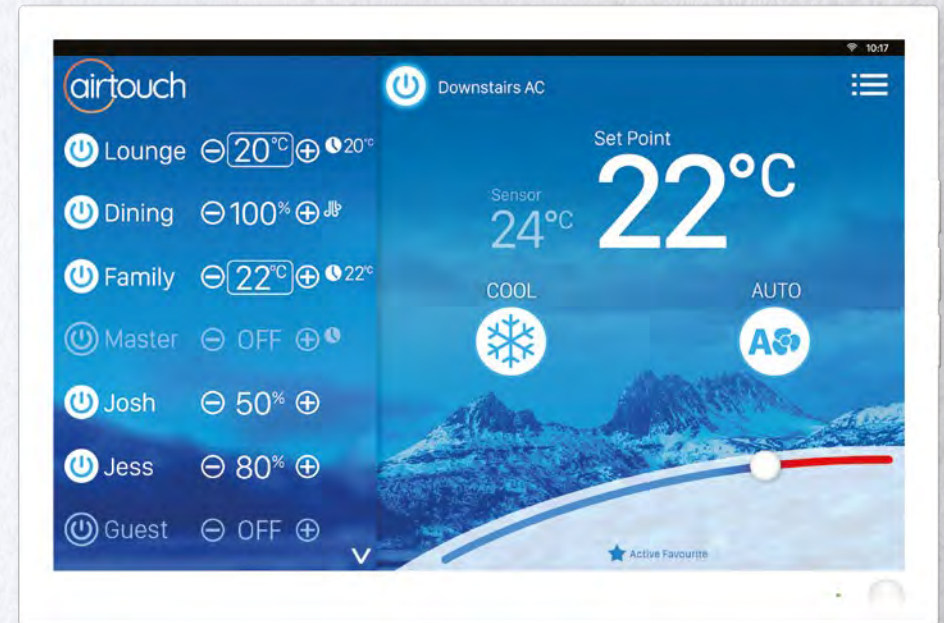

Smartphone App. Google Assistant. Amazon Alexa. IFTTT. The choice is yours.

Smart Home Automation

AirTouch 4 doubles as a hub for other smart home integrations and your favourite apps. Automate your lifestyle and be entertained.

Adapt your home to
**YOUR IDEA
OF COMFORT**

INTELLIGENT & **WITHOUT WASTAGE**

Save money on the power bill.
Without compromising on comfort.
Only run the AC where you need it with Smart Zoning.
Plus, with runtime tracking, energy and airflow management
technology, you can be sure of greater efficiency and
energy savings from your family's air conditioner.

Adjust the airflow around your home in 5% increments so everyone enjoys their own comfort zone.

LIVE IN COMFORT

With AirTouch

Our newly developed AirTouch 4 App gives you the same level of control of your AC unit as the touchscreen console, allowing anyone with a smartphone or tablet to set their own personal comfort level in the room they are in.

Staying with you

You won't have to come home to an oven in summer or a freezer in winter again.

On a hot or cold day the app can send you a temperature alert inviting you to turn on the air conditioning remotely.

Efficiency is everything

With the AirTouch app you can be sure you don't waste energy cooling or heating an empty building.

ADDING VALUE IMPROVING LIFE

Delivering the future today

AirTouch 4 delivers the right temperature, at the right place, at the right time. Whole house comfort, that you can control from anywhere.

INDIVIDUAL TEMPERATURE CONTROL

With optional Individual Temperature Control Technology (ITC), AirTouch monitors temperatures and smartly adjusts airflow as needed around your home.

When some rooms get too hot or cold, AirTouch will adjust their airflow to maintain temperature, without wasting energy on rooms already comfortable.

With ITC, you get an additional wireless On/Off switch for each zone in your home.

FUTURE PROOF YOUR SMART HOME

Lighting / Power / Smart Switches

Your AirTouch with Zimi Cloud Connect takes the complexity out of connectivity to control what you like, when and how you like.

Behaviour Link... Your Favourite Control

You can very simply and easily link Zimi devices to experience your favourite smart home accessories for lighting, appliances and more.

Zimi's unique Behaviour Link is a simple solution to control your home.

Zimi Cloud Connect future proofs all your Zimi devices allowing for new app and voice updates to be provided.

LIVE SMART

Your happy place is about to be smarter

Secure. Reliable.

The power of advanced mesh technology

The more linked devices you have, the stronger and more reliable your home network is.

Just say the word...

Voice control with the freedom to choose your smart assistant.

With AirTouch and Zimi, no matter who you choose to control your home climate, lighting, power and more, your smart home will respond.

Heated towels at 6am

Schedule your switches with Zimi

Never forget to turn it off

A switch with inbuilt timers & schedules adds a touch of simplicity in your everyday life

Timers

Pre-set a timer to turn it off automatically

Schedules

Turn it on or off, any time of the day

Switch your outdoor lights on from inside

Great for garden and pool lighting

UNIFIED CONTROL

Enjoy one central hub with control of your power and climate

Affordable, Expandable

Choose just the components you need for your home living. As your needs change, it is easy for a qualified installer to add more components.

Extended Wireless Connectivity

Every Powermesh device is a repeater, creating reliable connectivity with extended wireless signal strength.

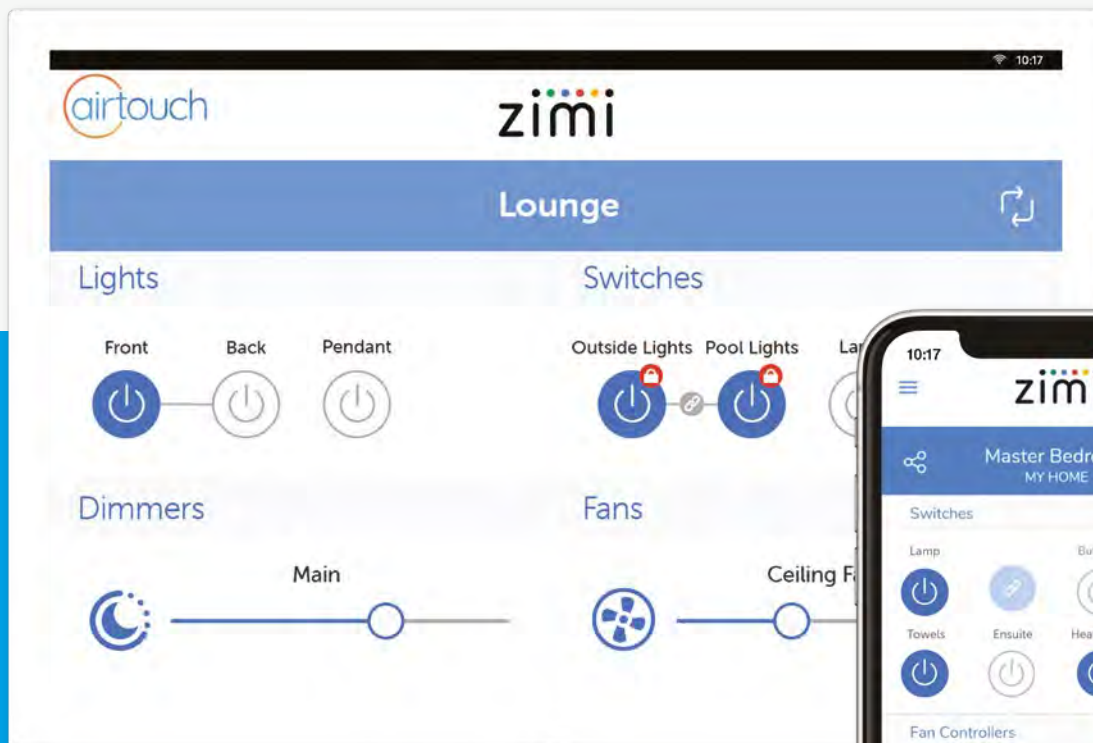

Australian Owned & Designed

A complete solution that's specifically suited for our local market with certification to Australian standards.

Control From Anywhere

With the Zimi mobile app, you can control your lights and powerpoints from anywhere.

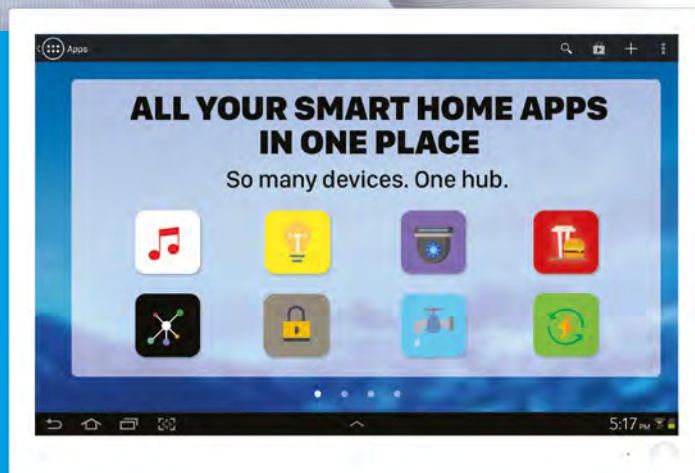

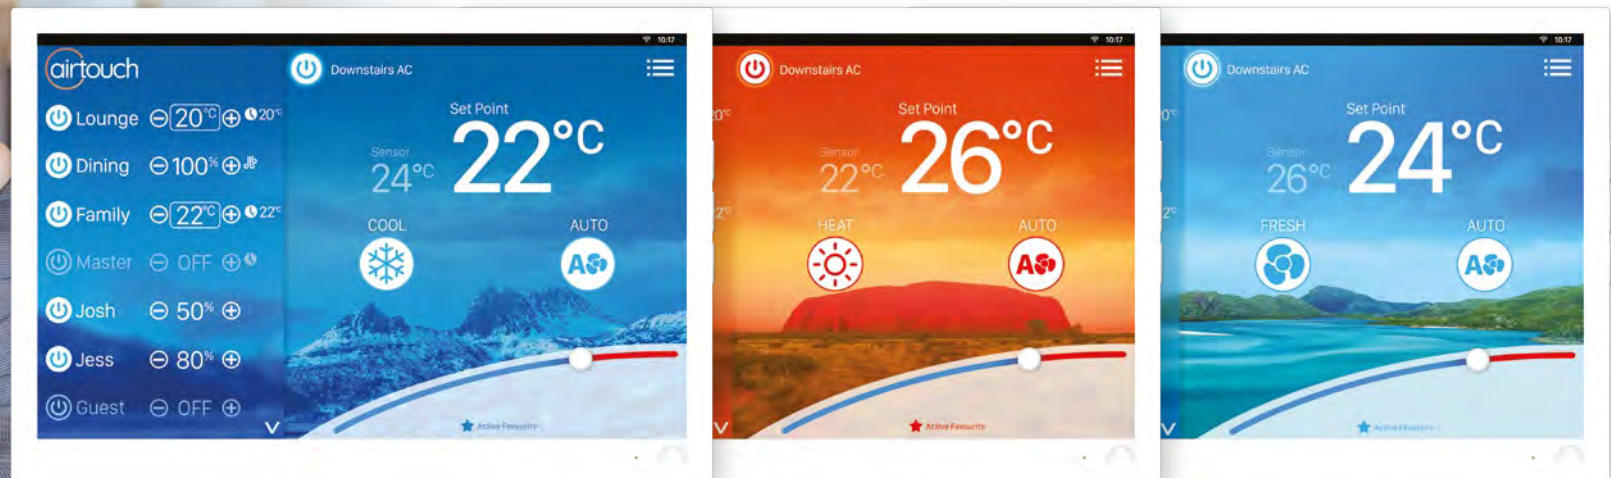

Zimi App Download

Point your phone camera at the QR code to open the app store.

IMPRESSIVELY INTUITIVE

With easy to use interfaces your personal comfort at home is ensured with one touch from you, either from a stylish touch screen, a clever smartphone app or a range of smart assistants.

A smart home hub THAT WORKS YOUR WAY

Enjoy smart home living with AirTouch

AirTouch doubles as a tablet, so you can use the console to run your choice of smart lighting, security and entertainment apps, or even order a meal while keeping up with the latest on social media.

Additional apps not pre-installed. Apps shown are for illustrative purposes only. All specifications and features are subject to change without notice. AirTouch may run on an Android operating system version that may affect the functionality of various apps. Users should check compatibility before use. AirTouch is unable to warrant functionality of 3rd party apps.

THE NEW STANDARD

True innovation should deliver the future today

No two houses are the same, but AirTouch is an air conditioner control system designed to be adaptable to many different house designs, geographic locations and family lifestyles.

Warranty for Peace of Mind

All parts and components are manufactured to superior quality and have undergone stringent testing to adhere to strict Australian regulations.

Add value to your home and enjoy the latest technology

Control your home climate using our one-of-a-kind HD touch screen console or the AirTouch App on your smart device.

Cleverly Connected

Secure WiFi connection to the internet for remote control.

Turbo Zone for a fast cool down or warm up.

Real Time Monitoring of home temperature against your chosen set point.

Optional Individual Temperature Control
For precise control of the temperature in specific rooms, upgrade to ITC.

Programs and Favourites
AirTouch lets you setup different automatic climate control scenarios for different days or seasons.
